

Multi-Family (MF) Property Representatives Request Training – And HUD Delivers!

On June 5, 2003, a group of MF Property Representatives from Maryland, Virginia (Roanoke, Hampton, and Richmond area) and Washington, DC, completed a three-day training course on UPCS Inspections. The training provided them with the essential tools and knowledge they need to better understand the requirements of the REAC physical inspection process. Participants learned how to navigate the PASS DCD Software, the REAC Inspector Protocol and Procedures and the UPCS Definitions. The training was held at the REAC. According to the participant's evaluations, the training was very well received. This was the first time that MF Representatives requested REAC's PASS training.

If you are a Property Owner, Agent or Representative of a property that is required to have a REAC Physical Inspection, or any other PIH-REAC business partner, and would like to learn more about the inspection process, you may contact us at the e-mail address below:
